(1) The Group applied IFRS 16 for the first time in its financial statements for the six months ended June 30, 2019, using the retrospective approach without restating prior-year comparative data (see ***Note 1.B****).*

(2) Effect relating to the revaluation of Core exposure at its weighted average cost, which has no cash impact.

(3) Other restatements for the six months ended June 30, 2019 primarily included (i) a positive 116 million euros to cancel the net change in operating provisions (including provisions for pensions and restructuring costs), and (ii) a positive 2 million euros to cancel the effect of changes in fair value of metal and foreign exchange derivatives, and (iii) a positive 4 million euros to cancel the expense relating to share-based payments. Other restatements for the six months ended June 30, 2018 primarily included (i) a negative 39 million euros to cancel the net change in operating provisions (including provisions for pensions and restructuring costs), (ii) a negative 24 million euros to cancel the effect of changes in fair value of metal and foreign exchange derivatives, and (iii) a positive 7 million euros to cancel the expense relating to share-based payments.

(4) The Group also uses the "operating cash flow" concept, which is mainly calculated after adding back cash outflows relating to reorganization costs (44 million euros and 28 million euros for the first six months of 2019 and 2018 respectively) and deducting gross cost of debt and current income tax paid during the period.

(5) During the first-half of 2018, the Group had sold tax receivables which had a net cash impact of 20 million euros. As the sales concerned transferred substantially all the risks and rewards of ownership, they had met the derecognition criteria in IAS 39 and had therefore been derecognized.

(6) During the first-half of 2018, the Group had bought back 784,413 of its own shares, representing a cash outflow of 24 million euros.

The limited review procedures were carried out and the Statutory Auditors' report is being issued.

Note 1. Summary of significant accounting policies

A. GENERAL PRINCIPLES

Nexans S.A. (the "Company") is a French joint stock corporation (*société anonyme*) governed by the laws and regulations applicable to commercial companies in France, notably the French Commercial Code (*Code de commerce*). The Company was formed on January 7, 1994 (under the name Atalec) and its headquarters are at Le Vinci, 4 allée de l'Arche, 92070 Paris La Défense Cedex, France.

Nexans S.A. is listed on Euronext Paris (Compartment A) and forms part of the SBF 120 index.

These condensed interim consolidated financial statements were approved by Nexans' Board of Directors on July 23, 2019. They are presented in euros rounded to the nearest million. Rounding may in some cases lead to non-material differences in totals or year-on-year changes.

Compliance with IAS 34

The condensed interim consolidated financial statements of the Nexans Group have been prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the European Union. The standards adopted by the European Union can be viewed on the European Commission website at:
https://ec.europa.eu/info/law/international-accounting-standards-regulation-ec-no-1606-2002/amending-and-supplementary-acts/acts-adopted-basis-regulatory-procedure-scrutiny-rps
The application of IFRS as issued by the IASB would not have a material impact on the financial statements presented.

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, "Interim Financial Reporting". They do not contain all the disclosures required for annual financial statements and should therefore be read in conjunction with the Group's annual financial statements for the year ended December 31, 2018.

Standards and interpretations applied

The accounting policies adopted for the financial statements at June 30, 2019 are consistent with those applied in the annual consolidated financial statements for the year ended December 31, 2018, except where (i) new standards and interpretations were applied as from January 1, 2019 (see **Note 1.B** below) and (ii) specific conditions apply relating to the preparation of interim financial statements (see **Note 1.C** below).

New standards, amendments and interpretations issued by the IASB but not yet effective

The IASB has not issued any new standards, amendments or interpretations that have been endorsed by the European Union but which are not yet effective.

The IASB has issued the following amendments that have not yet been endorsed by the European Union and are potentially applicable by the Group:

- Amendments to References to the Conceptual Framework in IFRS Standards.
- Amendments to IFRS 3, "Definition of a Business".
- Amendments to IFRS 10 and IAS 28, "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture".
- Amendments to IAS 1 and IAS 8, "Definition of Material".

The Group does not expect its application of these amendments to have a material impact on its consolidated financial statements.

Accounting estimates and judgments

The preparation of interim consolidated financial statements requires Management to exercise its judgment and make estimates and assumptions that could have a material impact on the reported amounts of assets, liabilities, income and expenses.

The main sources of uncertainty relating to estimates used to prepare the interim consolidated financial statements for first-half 2019 were the same as those described in the full-year 2018 consolidated financial statements. During the first six months of 2019, Management reviewed its estimates concerning:

- The recoverable amount of certain items of property, plant and equipment, goodwill and other intangible assets (see **Note 6** and **Note 10**).
- Deferred tax assets not recognized in prior periods relating to unused tax losses (see **Note 8**).
- Margins to completion and percentage of completion on long-term contracts.
- The measurement of pension liabilities and other employee benefits (see **Note 12**).
- Provisions and contingent liabilities (see **Note 13** and **Note 15**).
- The measurement of derivative instruments and their qualification as cash flow hedges.

These estimates and underlying assumptions are based on past experience and other factors considered reasonable under the circumstances and are reviewed on an ongoing basis. They serve as the basis for determining the carrying amounts of assets and liabilities when such amounts cannot be obtained directly from other sources. Due to the inherent uncertainties of any valuation process, it is possible that actual amounts reported in the Group's future financial statements may differ from the estimates used in these financial statements. The impact of changes in accounting estimates is recognized in the period of the change if it only affects that period or over the period of the change and subsequent periods if they are also affected by the change.

B. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

The Group has applied all of the new standards, amendments and interpretations that were mandatory for the first time in the fiscal year beginning January 1, 2019, and which were as follows:

- IFRS 16, "Leases", which replaces IAS 17 "Leases" and all related interpretations. IFRS 16 applies to all of the Group's lease contracts. The Group's application of this standard is described in detail below.
- IFRIC 23, "Uncertainty over Income Tax Treatments".
- Amendments to IFRS 9, "Prepayment Features with Negative Compensation".
- Annual Improvements to IFRS Standards 2015–2017 Cycle.
- Amendments to IAS 19, "Plan Amendment, Curtailment or Settlement".
- Amendments to IAS 28, "Long-term Interests in Associates and Joint Ventures".

Other than IFRS 16, the first-time application of the above amendments and interpretation did not have a material impact on the Group's consolidated financial statements.

Application of IFRS 16

IFRS 16, "Leases" – which is effective from January 1, 2019 – requires lessees to account for leases covered by the standard by recognizing:

- right-of-use assets, under property, plant and equipment; and
- lease liabilities, under debt, for future lease payments.

The application of IFRS 16 also resulted in the following changes in presentation:

- In the income statement, lease payments, which were previously recognized as expenses within "Operating margin", are now recognized as (i) depreciation of the right-of-use asset, included in "Operating margin", and (ii) interest on the lease liability, included in "Cost of debt (net)".
- In the statement of cash flows, lease payments were previously all included in cash flows from operating activities, whereas in accordance with IFRS 16, the portion corresponding to the repayment of lease liabilities is now recognized under "Proceeds from (repayments of) long-term and short-term borrowings" and the portion corresponding to the payment of interest on lease liabilities is recognized under "Interest paid", with both of these portions recognized in cash flows from financing activities.

The Group has elected to use the modified retrospective approach for its transition to IFRS 16. Under this approach, comparative data is not restated and any cumulative effect of first-time application of the standard is recognized as an adjustment to equity at the date of initial application. The Group has also applied the simplified options provided for in the standard. Consequently, lease payments corresponding to a low-value asset or a short-term lease (less than or equal to 12 months) are recognized directly as expenses. The following practical expedients were also applied for the transition to IFRS 16:

- No assets or liabilities were recognized for leases with a residual term of less than 12 months from January 1, 2019.
- The discount rates applied at the transition date were based on the Group's incremental borrowing rate to which a spread was added to take into account the economic environments specific to each country. These discount rates were determined taking into consideration the residual terms of the leases from the date of the Group's first-time application of IFRS 16, i.e., January 1, 2019.

The impact of applying IFRS 16 at January 1, 2019 resulted in a 126 million euro increase in the Group's debt and a corresponding 126 million euro increase in property, plant and equipment.
The table below shows an opening-balance reconciliation at January 1, 2019 between (i) lease liabilities recognized under IFRS 16 (representing the value of future lease payments), and (ii) the amount recognized for future lease payments at December 31, 2018 for operating leases, as defined in IAS 17.

(in millions of euros)	**Future payments under non-cancelable operating leases**	Exemption for short-term leases	Exemption for leases relating to low-value assets	Portion of leases corresponding to services	Change in estimates of lease terms	Discounting of lease payments	**Lease liabilities under IFRS 16**
JANUARY 1,	**156**	(6)	(1)	(4)	3	(22)	**126**

The first-time application of IFRS 16 led to a 15-million-euro increase in EBITDA compared with the first-half of 2018.

At both January 1, 2019 and June 30, 2019, the Group's lease contracts that resulted in the recognition of right-of-use assets and lease liabilities manly corresponded to real estate leases.

As a result of the first-time application of IFRS 16, the following paragraph has been added to **Note 1.F** to the consolidated financial statements for the year ended December 31, 2018:

Leases

Leases are recognized in the statement of financial position at their inception for an amount corresponding to the present value of the future lease payments. The discount rates used are based on the Group's incremental borrowing rate to which a spread is added to take into account the economic environments specific to each country.
This present value is recognized under "Lease liabilities" on the liabilities side of the statement of financial position and "Right-of-use assets" on the assets side. The right-of-use asset recognized for a lease is then depreciated over the term of the lease, which generally corresponds to the non-cancelable period of a lease, together with optional periods, i.e., periods where the Group is reasonably certain that it will exercise an extension option or not exercise a termination option.
In view of the above-described accounting treatment in the statement of financial position, leases are accounted for as follows in the income statement: depreciation expense on lease assets is included in "Operating margin" and interest is recorded as a financial expense. The tax impact of the restatements carried out on consolidation is accounted for via the recognition of deferred taxes.
In the statement of cash flows, lease payments are presented in cash flows from financing activities under "Proceeds from (repayments of) long-term and short-term borrowings" for the portion corresponding to the repayment of lease liabilities and under "Interest paid" for the portion corresponding to the payment of interest on lease liabilities.
Payments under leases corresponding to low-value assets or short-term leases are recognized directly as expenses.

The limited review procedures were carried out and the Statutory Auditors' report is being issued.

C. SPECIFIC ISSUES CONCERNING THE PREPARATION OF INTERIM FINANCIAL STATEMENTS

For the purpose of preparing the Group's condensed interim consolidated financial statements, the following calculations and estimates are applied in addition to the recognition, measurement and presentation rules described in **Note 1.A**:

- The current and deferred tax charge for the period is calculated by applying the estimated average annual tax rate for the current fiscal year to the first-half pre-tax income figure for each entity or tax group. This average annual rate includes, where appropriate, the impact of transactions affecting the legal structure of the Group during the period, such as mergers.

- The net provision recognized for pension and other long-term employee benefit obligations is calculated based on the latest valuations available at the previous period-end. Expenses recognized during the period for pension and other long-term employee benefit obligations are calculated based on half of the estimated amount for the full year. Adjustments of actuarial assumptions are performed on the main contributing plans in order to take into account any significant fluctuations or one-time events that may have occurred during the six-month period. The fair value of the main plan assets is reviewed at the period end.

Note 2. Significant events of the period

A. FINANCING THE CONSTRUCTION OF THE AURORA CABLE-LAYING VESSEL

In 2018, the Group launched the construction of a new cable laying vessel, which should be delivered in 2021, to support the growth of the high-voltage submarine power cable business. The financing contracts for this cable laying vessel, worth 107 million euros (1,050 million Norwegian krone), were signed on May 10, 2019.
Refer to **Note 14** for further detail.

B. REDEMPTION OF BONDS CONVERTIBLE INTO NEW SHARES AND/OR EXCHANGEABLE FOR EXISTING SHARES (OCEANE BONDS)

All of the remaining OCEANE 2019 bonds were redeemed in early January 2019 as they had reached maturity. The total amount paid was 276 million euros, including accrued interest on the bonds.

C. EUROPEAN REORGANIZATION PROJECT

On January 24, 2019, Nexans initiated an information and consultation process and unveiled a European restructuring plan that should make it possible to:

- overhaul the organization by focusing on core businesses, eliminating regional structures and streamlining the overall structure;
- create a more agile and more efficient Nexans by reducing the number of reporting levels.

This plan should enable Nexans to:

- resize corporate business activities at head office level;
- pool certain functional activities between countries; and n adapt selected manufacturing infrastructure.

This plan should also enhance the way Innovation and Technology is organized within the Group alongside the shift to more scaleable and versatile businesses and services.

The restructuring plan could lead to 939 job cuts and the creation of 296 new positions. The main social impact would be in Germany, France, Switzerland and, to a lesser extent, Belgium, Norway and Italy.

Nexans is working closely with all stakeholders to minimize the social impact of the plan, in accordance with the applicable laws. Nexans is deeply committed to working closely with the affected employees and the union representatives to provide the appropriate support.

As a consequence, the Groupe recorded 154 million euros of net restructuring costs in the income statement for the six months ended June 30, 2019, including a provision which stood at 140 million euros in the balance sheet as of June 30, 2019 (see **Note 13)**.

Note 3. Operating segments

The Group has the following four reportable segments within the meaning of IFRS 8 (after taking into account the aggregations authorized by the standard):

- **Building & Territories:** This segment provides reliable cabling systems and smart energy solutions enabling buildings and territories to be more efficient, sustainable and people-friendly. It covers the following markets: building, smart cities/grids, e-mobility, local infrastructure, decentralized energy systems and rural electrification.

- **High Voltage & Projects:** This segment partners its customers from the start of the cycle (design, engineering, financing, asset management) right through to the end (systems management) to help them find the cabling solution that is the best suited to their needs in terms of efficiency and reliability. It covers the following markets: offshore wind farms, subsea interconnections, land high-voltage, and smart solutions for the oil and gas sector (direct electric heating, subsea heating cables).

- **Telecom & Data:** This segment helps customers to easily deploy copper and fiber optic infrastructure thanks to plug-and-play cabling and connection solutions. It encompasses the following activities: data transmission (subsea, fiber, FTTx), telecom networks, hyperscale data centers and LAN cabling solutions.

- **Industry & Solutions:** This segment provides support to OEMs and industrial infrastructure project managers in personalizing their cabling and connection solutions to enable them to meet their electrification, digitization and automation requirements. It covers the following markets: transport (aeronautics, rail, shipbuilding, automotive), automatic devices, renewable energy (solar and wind power), resources (oil and gas, mining) and other sectors (nuclear, medical, handling, etc.).

The Group's segment information also includes a column entitled "Other Activities", which corresponds to (i) certain specific or centralized activities carried out for the Group as a whole which give rise to expenses that are not allocated between the various segments, and (ii) the Electrical Wires business, comprising wire rods, electrical wires and winding wire production operations.

Two specific facts should be noted for the "Other Activities" column:
- A total 93% of the sales at constant metal prices recorded under "Other Activities" in first-half 2019 were generated by the Group's Electrical Wires business (compared with 93% in first-half 2018).
- Operating margin for "Other Activities" was a negative 21 million euros in first-half 2019, reflecting the combined impact of profit generated from sales of copper wires and certain centralized Group costs that are not allocated between the segments (such as holding company expenses).

Transfer prices between the various operating segments are generally the same as those applied for transactions with parties outside the Group.

Operating segment data were prepared using the same accounting policies as for the consolidated financial statements for the year ended December 31, 2018 (described in the notes to those financial statements), as amended by **Note 1.B** above. Consequently, consolidated EBITDA corresponds to operating margin before depreciation and amortization and the figures for first-half 2019 include the impacts of applying IFRS 16, "Leases".

The limited review procedures were carried out and the Statutory Auditors' report is being issued.

C. INFORMATION BY MAJOR CUSTOMER

The Group did not have any customers that individually accounted for more than 10% of its sales in first-half 2019 or first-half 2018.

The limited review procedures were carried out and the Statutory Auditors' report is being issued.

Note 4. Sales

Consolidated sales can be analyzed as follows:

First-half 2019 *Sales (in millions of euros)*	Building & Territories	High Voltage & Projects	Telecom & Data	Industry & Solutions	Other	Group total

Note 5. Other operating income and expenses

(in millions of euros)	Notes	First-half 2019	First-half 2018
Net asset impairment	6	-	(18)
Changes in fair value of non-ferrous metal derivatives		4	0
Net gains (losses) on asset disposals		10	(44)
Acquisition-related costs (completed and planned acquisitions)		(0)	(2)
Expenses and provisions for antitrust investigations	15	(0)	(3)
OTHER OPERATING INCOME AND EXPENSES		**13**	**21**

During the first-half of 2019, “Net gains (losses) on asset disposals” included mainly related to the sale of real estate assets respectively in France and in Switzerland.

In first-half 2018, “Net gains (losses) on asset disposals” included 44 million euros from the sale of the Group’s plant in Lyon.

The expenses recognized for antitrust investigations in first-half 2018 primarily corresponded to the cost of civil proceedings (related to local antitrust investigations) brought against the Group’s local operating entities in South Korea (see **Note 15**).

The limited review procedures were carried out and the Statutory Auditors' report is being issued.

Note 6. Net asset impairment

The Group carries out impairment tests on goodwill and intangible assets with indefinite useful lives at least once a year and on other intangible assets and property, plant and equipment whenever there is an indication that they may be impaired.

At June 30, 2019, Nexans carried out a review of its main assets in order to identify any indications of impairment that may have arisen over the period. For this review, the Group used the same discount rates and perpetual growth rates as at December 31, 2018.

The review led to none impairment at June 30, 2019.

In accordance with Group policy, goodwill impairment tests will be performed at the year-end at the level of the Cash-Generating Unit to which the goodwill is allocated.

The impairment review carried out in first-half 2018 led to the recognition of an 18-million-euro impairment loss against property, plant and equipment.

Sensitivity analyses

The Group did not carry out any sensitivity analyses at June 30, 2019 following the abovementioned review.

See **Note 8** to the full-year 2018 consolidated financial statements for the tests performed and the relevant sensitivity analyses.

Note 7. Other financial income and expenses

(in millions of euros)	First-half 2019	First-half 2018
Dividends received from non-consolidated companies	1	0
Provisions	0	(0)
Net foreign exchange gain (loss)	(6)	(1)
Net interest expense on pension and other long-term employee benefit obligations	(3)	(3)
Other	(4)	(6)
OTHER FINANCIAL INCOME AND EXPENSES	**(12)**	**(9)**

Note 8. Income taxes

The effective income tax rate was as follows for first-half 2019 and first-half 2018:

Tax proof *(in millions of euros)*	First-half 2019	First-half 2018
Income before taxes	(85)	59
- of which share in net income of associates	0	0
INCOME BEFORE TAXES AND SHARE IN NET INCOME OF ASSOCIATES	**(85)**	**59**
Income taxes	(27)	(23)
EFFECTIVE INCOME TAX RATE (in %)	**(32.18) %**	**39.18 %**

Negative effective income tax rate for first-half 2019 is a consequence of the European restructuring plan for which impacts recorded in 2019 (see **Note 13**) are mainly in countries where the recognition of deferred tax assets is limited.

The limited review procedures were carried out and the Statutory Auditors' report is being issued.

Note 9. Earnings per share

The following table presents a reconciliation of basic earnings per share and diluted earnings per share:

Note 10. Goodwill

The change in goodwill in first-half 2019 (241 million euros at June 30, 2019 versus 243 million euros at December 31, 2018) is primarily attributable to changes in exchange rates as the majority of the Group's goodwill is denominated in foreign currencies because it relates to the acquisitions of Olex in Australia, Madeco in South America and AmerCable in North America.

Goodwill is tested for impairment at least once a year and whenever there is an indication that it may be impaired, using the methods and assumptions described in the notes to the full-year 2018 consolidated financial statements. No goodwill impairment losses were recognized in first-half 2019, first-half 2018 or full-year 2018.

Note 11. Equity

A. COMPOSITION OF CAPITAL STOCK

At June 30, 2019, Nexans S.A.'s capital stock comprised 43,606,320 fully paid-up shares with a par value of 1 euro each (43,606,320 shares at December 31, 2018). The Company’s shares have not carried double voting rights since said rights were removed by way of a resolution passed at the Shareholders’ Meeting of November 10, 2011.

B. DIVIDENDS

At the Annual Shareholders’ Meeting held on May 15, 2019 to approve the financial statements for the year ended December 31, 2018, the Company’s shareholders authorized payment of a dividend of 0.30 euros per share, representing an aggregate 13 million euros based on the 43,371,996 ordinary shares making up the Company’s capital stock on the May 21, 2019 dividend payment date (excluding shares held in treasury).

At the Annual Shareholders' Meeting held on May 17, 2018 to approve the financial statements for the year ended December 31, 2017, the Company's shareholders authorized the payment of a dividend of 0.70 euros per share – representing a total of 30 million euros – which was paid out on May 22, 2018.

The limited review procedures were carried out and the Statutory Auditors' report is being issued.

C. TREASURY STOCK

At June 30, 2019, Nexans S.A. held 234,324 shares in treasury (234,324 at December 31, 2018).

D. STOCK OPTIONS

There were no stock options outstanding throughout the first-half of 2019 or at the period-end.
A total of 13,734 stock options were exercised in the first-half of 2018 and there were no longer any stock options outstanding at June 30, 2018.

E. FREE SHARES AND PERFORMANCE SHARES

At June 30, 2019 there were 1,074,464 free shares and performance shares outstanding, each entitling their owner to one share on vesting, representing a total of 2.5% of the Company's capital stock (762,584 shares at December 31, 2018, representing 1.7% of the Company's capital stock).

The fair value of free shares and performance shares is recorded as a payroll expense from the grant date to the end of the vesting period, with a corresponding adjustment to equity. In the first-half 2019 income statement, this expense totaled 3 million euros (versus 5 million euros in first-half 2018).

Note 12. Pensions, retirement bonuses and other long-term benefits

The net provision recognized for pension and other long-term employee benefit obligations is calculated based on the latest valuations available at the previous period-end. Adjustments of actuarial assumptions are performed on the main contributing plans in order to take into account any significant fluctuations or one-time events that may have occurred during the six-month period. At June 30, 2019 the benefit obligations and plan assets of the plans in France, Switzerland, Germany, Canada and the United States were remeasured, primarily based on the applicable discount rates and the fair value of the plan assets.

<u>Main assumptions:</u>

The basic assumptions used for the actuarial calculations required to measure obligations under defined benefit plans are determined by the Group in conjunction with its external actuary. Demographic and other assumptions (such as for staff turnover and salary increases) are set on a per-company basis, taking into consideration local job market trends and forecasts specific to each entity.

The weighted average rates used for the main countries concerned are listed below:

	Discount rate June 30, 2019	Discount rate December 31, 2018	Discount rate June 30, 2018
France	1.15%	1.60%	1.70%
Germany	1.15%	1.60%	1.70%
Switzerland	0.35%	0.90%	0.70%
Canada	2.95%	3.45%	3.55%
United States	3.80%	4.15%	3.85%

The limited review procedures were carried out and the Statutory Auditors' report is being issued.

Note 13. Provisions

A. ANALYSIS BY NATURE

Movements in provisions for contingencies and charges were as follows during the first-half of 2019:

(in millions of euros)	TOTAL	Accrued contract costs	Restructuring provisions	Other provisions
AT DECEMBER 31, 2018	**147**	**32**	**34**	**81**
Additions	160	6	151	3
Reversals (utilized provisions)	(24)	(6)	(13)	(5)
Reversals (surplus provisions)	(4)	(2)	(1)	(0)
Business combinations	-	-	-	-
Exchange differences and other	6	0	(0)	6
AT JUNE 30, 2019	**285**	**32**	**170**	**84**

The above provisions have not been discounted as the effect of discounting would not have been material.

Provisions for accrued contract costs are primarily set aside by the Group as a result of its contractual responsibilities, particularly relating to customer warranties, loss-making contracts and penalties under commercial contracts. Where appropriate, they also include provisions for goods and services contracts in progress.

The ”Other provisions” column primarily includes provisions set aside for antitrust investigations, which amounted to 55 million euros at June 30, 2019 (see **Note 15**).

B. ANALYSIS OF REORGANIZATION COSTS

Reorganization costs came to 182 million euros in first-half 2019, breaking down as follows:

(in millions of euros)	Redundancy costs	Asset impairment and write-offs(1)	Other monetary costs	TOTAL
Additions to provisions for restructuring costs net of reversals for surpluses	142	7	7	156
Other costs for the period(2)	(1)	-	27	26
TOTAL REORGANIZATION COSTS	**141**	**7**	**34**	**182**

(1) Deducted from the carrying amount of the corresponding assets in the consolidated statement of financial position.

(2) The other costs for the period included 6 million euros of curtailment gains on pensions for the six months ended June 30, 2019.

In first-half 2019, 154 million euros of the above costs related to the project to reorganize the Group's operations in Europe announced on January 24, 2019 (see **Note 2**). This amount primarily corresponds to provisions recognized for redundancy costs and, to a lesser extent, costs expensed as incurred in accordance with IFRS (chiefly concerning Germany, France and Belgium).
In addition to restructuring costs, "Other monetary costs" included 4 million euros in costs directly related to the transformation program announced by the Group on November 9, 2018.
The remainder of the first-half 2019 total reorganization costs mainly relates to reorganization plans in progress in the Asia-Pacific region, Brazil and North America.

The 20 million euros recorded in first-half 2018 concerned (i) provisions recognized for redundancy costs, notably in Europe, and (ii) costs expensed as incurred, in accordance with IFRS.

As was the case in previous years, wherever possible the reorganization plans implemented by the Group in first-half 2019 included assistance measures negotiated with employee representative bodies as well as measures aimed at limiting lay-offs and facilitating redeployment.

Note 14. Net debt

At June 30, 2019 and December 31, 2018, the Group's long-term debt was rated BB by Standard & Poor's with a negative outlook.

A. ANALYSIS BY NATURE

(in millions of euros)	Notes	June 30, 2019	December 31, 2018

NET DEBT EXCLUDING LEASE LIABILITIES		**587**	**330**
Lease liabilities(3)		123	-
NET DEBT		**709**	**330**

(1) Excluding short-term accrued interest not yet due and lease liabilities.
(2) Excluding lease liabilities.
(3) Out of the total lease liabilities recognized at June 30, 2019, 98 million euros corresponded to long-term liabilities, the remaining part being short-term liabilities. The related interest expense amounted to 2 million euros in first-half 2019.

The amount recognized under "Other long-term borrowings" at June 30, 2019 includes a 51-million-euro liability related to financing the construction of a cable-laying vessel (see **Note 2** and **Note 14.C**).

At June 30, 2019, the Group's short-term debt included a securitization program (the "On-Balance Sheet" program) set up by Nexans France in the second quarter of 2010. This program involves the sale of trade receivables and is contractually capped at 80 million euros.

The limited review procedures were carried out and the Statutory Auditors' report is being issued.

B. BONDS

At June 30, 2019 *(in millions of euros)*	Carrying amount at June 30, 2019	Face value at issue date	Maturity date	Nominal interest rate
Ordinary bonds redeemable in 2021	250	250	May 26, 2021	3.25%
Ordinary bonds redeemable in 2023	334	325	August 8, 2023	3.75%
Ordinary bonds redeemable in 2024	200	200	April 5, 2024	2.75%
TOTAL BONDS(1)	**785**	**775**		

(1) Including 13 million euros in short-term accrued interest.

All of the OCEANE 2019 bonds were redeemed in early January for an aggregate amount of 276 million euros, including accrued interest.

On August 8, 2018, Nexans issued 325 million euros worth of fixed-rate bonds with a five-year term, maturing on August 8, 2023. The bonds were issued at par and have an annual coupon of 3.75%.

On March 19, 2018, all of the ordinary bonds redeemable in 2018 were redeemed in cash as they had reached maturity. The total amount paid was 261 million euros including accrued interest.

On April 5, 2017, Nexans issued 200 million euros worth of bonds maturing on April 5, 2024, and on May 26, 2016 it issued 250 million euros worth of bonds maturing on May 26, 2021. All of these bonds were issued at par.

C. COVENANTS

On December 12, 2018 the Group signed an amendment to its 600 million euro syndicated credit facility, extending the expiration date until December 12, 2023. This 600-million-euro facility included a 200 million euro very short-term drawing facility designed to secure a negotiable instruments program signed on December 21, 2018 for a maximum amount of 400 million euros. The amount outstanding under this program at June 30, 2019 was 55 million euros.

The amended syndicated credit facility is subject to the following two covenants, applicable as from June 30, 2019:
- the consolidated net debt to equity ratio (including non-controlling interests) must not exceed 1.20x; and
- consolidated debt must not exceed 3.2x consolidated EBITDA, as defined in the consolidated financial statements for the year ended December 31, 2018.

These ratios were well within the specified limits at June 30, 2019.

At both December 31, 2018 and at the date the Board of Directors approved the 2018 financial statements, the applicable ratios (which were well within the specified limits) were as follows:
- a maximum consolidated net debt to equity ratio (including non-controlling interests) of 1.10x; and
- a maximum consolidated net debt/EBITDA ratio of 3.0x.

In addition, in order to finance the construction of Nexans' new cable-laying vessel, a Group subsidiary took out a loan of 1,050 million Norwegian krone in May 2019. This loan – which will be drawn down in tranches throughout the vessel's construction – will be repaid on a straight-line basis over the twelve years following delivery of the vessel. It includes two options exercisable by the Group on the vessel's delivery date: (i) an option to switch from a variable interest rate to a fixed rate, and (ii) an option to choose between the Norwegian krone, the euro or the US dollar as the repayment currency.
The loan also includes (i) the same financial covenants as those set out in the Group's amended syndicated credit facility described above and (ii) covenants specific to the Group's subsidiary, based on the following:
- an equity to asset ratio
- a net debt to equity ratio
- a certain level of cash and cash equivalents.

These covenants were well within the specified limits at June 30, 2019.

The Group is not subject to any other financial ratio covenants.

The limited review procedures were carried out and the Statutory Auditors' report is being issued.

Note 15. Disputes and contingent liabilities

A. ANTITRUST INVESTIGATIONS

On April 7, 2014, Nexans France SAS and the Company were notified of the European Commission's decision, which found that Nexans France SAS had participated directly in an infringement of European antitrust legislation in the submarine and underground high-voltage power cable sector. The Company was held jointly liable for the payment of a portion of the fine imposed on Nexans France SAS by the European Commission.

In early July 2014, Nexans France SAS paid the 70.6 million euro fine imposed by the European Commission.
Nexans France SAS and the Company appealed the European Commission's decision to the General Court of the European Union. The appeal was dismissed on July 12, 2018. Nexans France SAS and the Company filed a claim before the European Court of Justice, which agreed to hear the application on September 26, 2018 and the case is proceeding accordingly.

As an indirect consequence of the European Commission's decision, one of the Group's competitors, which has been subject to follow-on damages claims initiated in 2015, has filed a contribution claim against the other cable producers sanctioned by the European Commission, including Nexans France SAS and Nexans S.A.

In April 2019, certain Group entities received claims from customers filed before the courts in the United-Kingdom, the Netherlands and Italy against Nexans and other defendants. The claim in the UK has been lodged by Scottish and Southern Energy. The claim in Italy has been brought before the Court of Milan by Terna S.p.A. Finally, the damage claim in Netherlands was made jointly by Electricity & Water Authority of Bahrain, GCC Interconnection Authority, Kuwait Ministry of Electricity and Water and Oman Electricity Transmission Company, against certain companies of the Prysmian Group and its former shareholders, and companies in the Nexans Group and ABB Group. This action has been brought in the Court of Amsterdam.

Investigations carried out by the American, Japanese, New Zealand and Canadian authorities in the high-voltage power cable sector were closed without sanctions. During investigations led by the Australian antitrust authority (ACCC), the Australian courts dismissed the ACCC's case and refused to sanction Nexans and its Australian subsidiary in the high-voltage power cable sector in a case pertaining to the sale of low- and medium-voltage cables.

Investigation in Brazil by the General Superintendence of the antitrust authority "CADE" in the high-voltage power cable sector has been concluded on February 11, 2019 and recommendation has been made by the same to the Administrative Tribunal of CADE to sanction the defendants in this case. A judgment by the Tribunal of CADE is expected by end of 2019.

Investigation by the antitrust authority in South Korea in the high-voltage power cable sector has not been officially closed but Nexans understands that the statute of limitations should be considered expired.

Nexans' local Korean subsidiaries have cooperated with South Korea's antitrust authority (KFTC) in investigations initiated between 2013 and 2015 businesses other than the high-voltage. As a result, full leniency (zero fine) has been granted by KFTC in all such cases, except for one for which the Korean subsidiaries were granted a 20% reduction of fines and were ordered to pay the KFTC a total of approx. 850,000 euros. All such investigations are now closed, and the risks associated to the majority of claims brought by customers in connection with them are now all closed.

On November 24, 2017 in Spain, Nexans Iberia and the Company (in its capacity as Nexans Iberia's parent company) were notified of a decision by the Spanish competition authority ("CNMC"), which found that Nexans Iberia had participated directly in an infringement of Spanish competition laws in the low- and medium-voltage cable sectors. The Company was held jointly liable for the payment of part of the fine levied on Nexans Iberia by the CNMC. In early January 2018, Nexans Iberia settled the 1.3 million euro fine levied by the CNMC. Nexans Iberia and the Company have appealed the CNMC's decision.

At June 30, 2019 the Group has a recorded contingency provision a 55 million euro to cover all the investigations mentioned above as well as the direct and indirect consequences of the related rulings that have been or will be handed down and in particular the follow-on damages claims by customers (existing or potential claims). The amount of the provision is based on management's assumptions that take into account the consequences in similar cases and currently available information. There is still uncertainty as to the extent of the risks related to potential claims and/or fines. The final costs related to these risks could therefore be significantly different from the amount of the provision recognized.

The Group's risk prevention and compliance systems have been strengthened regularly and significantly in recent years (see section 3.2., Main risk factors and risk management within the Group). However, the Group cannot guarantee that all risks and problems relating to practices that do not comply with the applicable rules of ethics and business conduct will be fully controlled or eliminated. The compliance program includes means of detection which could generate internal investigations, and even external investigations. As consistently communicated by the Company in the past, unfavorable outcomes for antitrust proceedings and/or investigations as well as the associated consequences could have a material adverse effect on the results and thus the financial position of the Group.

B. OTHER DISPUTES AND PROCEEDINGS GIVING RISE TO THE RECOGNITION OF PROVISIONS

For cases where the criteria are met for recognizing provisions, the Group considers the resolution of the disputes and proceedings concerned will not materially impact the Group's results in light of the provisions recorded in the financial statements. Depending on the circumstances, this assessment takes into account the Group's insurance coverage, any third party guarantees or warranties and, where applicable, evaluations by the independent counsel of the probability of judgment being entered against the Group.

The Group considers that the other existing or probable disputes for which provisions were recorded at June 30, 2019 do not individually represent sufficiently material amounts to require specific disclosures in the consolidated financial statements.

C. CONTINGENT LIABILITIES RELATING TO DISPUTES AND PROCEEDINGS

Certain contracts entered into by the Group as at June 30, 2019 could lead to performance difficulties, but the Group currently considers that those difficulties do not justify the recognition of provisions in the financial statements or specific disclosure as contingent liabilities.

Note 16. Subsequent events

No significant events for which disclosure is required have occurred since June 30, 2019.
